Afeef.

AI Engineer, Kerala, India
Builds tools that answer plain-English questions about real business data

01 Type

HEADINGS

Plain answers, specific numbers.

IBM Plex Sans SemiBold, 600

BODY

I build AI tools that let business owners ask questions about their own data in plain English.

IBM Plex Sans Regular, 400

One family, two weights. Free on Google Fonts. Body 16px, headings 1.15 line height.

02 Palette

Aa	Aa	Aa	Aa
Deep teal #1E4D5C Main: headings, logo, rules	**Ink** #14181B Near-black body text	**Paper** #F7F8F6 Near-white background	**Amber** #D98A2B Accent: one dot or rule per page, never text

03 Logo and favicon

Afeef.

Wordmark: name in IBM Plex Sans SemiBold, deep teal, with the amber dot.

Favicon: the same monogram at 48, 32 and 16px. A lowercase a, then the dot, like the end of a plain sentence.

04 Style note for my Claude Project

Fonts: IBM Plex Sans (SemiBold 600 headings, Regular 400 body). Colors: deep teal #1E4D5C, ink #14181B, paper #F7F8F6, amber accent #D98A2B (fills and rules only, never text).
